In accordance with code 37 CFR 1.84(a)(2) I am filing a petition to have my three colored photographs, which are currently on file, be accepted as formal photographs. The board game I have invented consists of several color sections and colored marbles that are an integral part of its operation of play. To fully understand the conception of this board game it is helpful to view the colored photographs in order to better grasp the subject matter.

The filing of my patent, a board game called Blind Choice, consists of three colored photographs. In order that they will be accepted as formal photographs I am sending this petition and I am enclosing a fee of \$130.00 per code 37 CFR 1.17(h), along with one copy each of the three colored photographs currently on file plus one black and white photograph as required under 37 CFR 1.84(a)(2).

*"The file of this patent contains at least one photograph executed in color. Copies of this patent with color photograph(s) will be provided by the Patent and Trademark Office upon request and payment of the necessary fee."*

The enclosed photographs are as follows:

- (1) The first colored photograph shows an overview of the board game Blind Choice. It depicts the multi colored board, the different colored marbles in their appropriate location on the board, one bag for the marbles and the die.
- (2) The second colored photograph is an overview shot of the board game Blind Choice depicting the multi colored game board, the filled bag of marbles and the die.
- (3) The third colored photograph is an overview of the board game Blind Choice depicting the multi colored board game and the different colored marbles.
- (4) The fourth photograph is a black and white copy colored photograph #1 for comparison purposes.

Jack Martin
